

Practical Math/Geometry/Algebra Syllabus

Welcome to my Class!

In these classes all students will work on basic math skills, counting money and telling time. Geometry and Algebra students will learn basic skills in these subjects. Students in Algebra 1 will be preparing to take the Algebra 1 End of Course Exam in the spring.

Math curriculum is based on Missouri Standards.

Daily Agenda

Warm Up: 15 minutes (cell phones will be collected)

Rotations: Class will continue with three 20 minute centers that students will rotate through.

Center 1 lesson for the day

Center 2 Individual goals, money and time

Center 3 *ixl and math games

Free Time: Last 15 minutes of class (cell phones will be returned)

**ixl is a computer program that is based on building individual math skills based on that students level*

Cell Phone Policy in my Classroom

The expectation in my class is that cell phones will be placed in a locked box each period until instruction is complete. If a student has a phone and is using it during class the following will happen:

1. Warning
2. Private discussion with teacher
3. Phone call home
4. Office referral

Student Signature: _____

Parent Signature: _____
